THE BEST FRONTIER FOR BUSINESS

INDUSTRY DIVERSITY

Wyoming has a diverse profile of business within the firearms industry. From rifles to optics, and sights to ammunition, our local communities support these thriving businesses.

Like many other outdoor recreation businesses across the country, the pandemic created an increased demand for these local companies, most of whom found creative ways to hire additional workforce, increase production capacity, and add new product lines.

SUPPORT & TRAINING

Wyoming's seven community colleges across the state offer a wide array of programs that serve the needs of firearms and advanced manufacturing training needs. Community colleges work diligently with local businesses to help provide training programs in CNC machining, fabrication and welding, that bolster the talent of the manufacturing workforce. Manufacturing Works, the state's Manufacturing Extension Partnership, is also available to assist Wyoming manufacturers, producers and entrepreneurs strategically identifying and solve their most pressing issues – enabling them to take their business to the next level.

RICH CULTURE

Wyoming enjoys easy access to year-round recreation opportunities and wide open spaces. Here, the great outdoors and economic opportunity go hand-in-hand, making Wyoming home to a burgeoning firearm industry.
